

C:CARD

C:card is a free condom service in Edinburgh & the Lothians. They don't ask for your name or address, but let you access free condoms through their Network. All you need to do is go to the closest c:card point that is appropriate for your age.

FIRSTLY, MEET C-CARD'S MASCOT: WILLY THE CONDOM

IF YOU ARE AGED 16+

You can go to any c:card point: c:card direct or c:card plus. You can find your nearest c:card point online at this url:

<https://www.ccard.org.uk/find-a-ccard-point/>

When you get to your location, you will be shown the c:card range of products. Simply ask for what you want or use the Request Card. The worker will put these into a paper bag for discretion along with a c:card for you to use when you come back. However, you can also access condoms if you forget your c:card.

The card you will be given is silver and has a number on it. This is your c:card to keep and use again. The card is used to track sexual practices in the area.

RANGE OF PRODUCTS

The c:card network has a pretty big range of products and they include:

- **Naturelle:** a flared condom that is wider at the top giving more room around the head of the penis. This can make the condom feel more comfortable and increase stimulation and sensation.
- **Intensity:** has raised dots and ribs inside and out to give extra stimulation to both partners.
- **Taste:** flavoured from blueberry, strawberry and mint and can be used for oral and other forms of penetrative sex.
- **Trim:** a slightly narrower condom which gives a tighter fit. If condoms tend to slip off for you, this is a good choice.
- **King size:** larger condom for those who prefer a looser fit. Make sure it doesn't slip off.
- **Smiley:** the same as Naturelle, but packaged in round foils with various emoji themed smiley designs.
- **Feel:** these are made of thinner latex, which provides increased sensation.
- **Light Lube:** water based, condom friendly lubricant. It is thinner than Adore. Take it from me, lube is your friend.
- **Flavoured Lube:** also water based but in three exciting flavours!
- **Adore:** thicker in consistency water based & condom friendly lube.
- **Sensiva:** condoms for those with latex allergies. Don't contain latex.
- **The female condom:** also latex-free for anyone who does not have a willy that needs covering.

GET CONSENT; HOP ON; BE SAFE
